

Chemical name: 1-Naphtyl isocyanate
 CAS: 86-84-0
 EINECS: 201-703-7
 Other names: alpha-Naphtyl isocyanate|1-Isocyanatonaphthalene
 Molecular formula: C₁₁H₇NO
 Structural formula:

Relative mol. weight: 169.18
 General description: light yellow liquid with characteristic pungent, lachrymator

Quality values

Content of 1-naphtyl isocyanate (GC)	min. 99.0 %
Other isocyanates (GC)	max. 0.1 %
Organic solvent (GC)	max. 0.5 %

Wrappage

Polypropylene liquor drums with UN-Code a 200 kg.

Storage

Store in original tightly closed containers in dry, cold and well-ventilated areas. Thoroughly protect from atmospheric moisture and light.
