

Chemical name: 2-Phenylethylisocyanate
 CAS: 1943-82-4
 EINECS: 413-080-0
 Other names: Phenethyl isocyanate
 Molecular formula: C₉H₉NO
 Structural formula:

Relative mol. weight: 147.18
 General description: colourless to yellowish translucent viscous liquid with pungent smell, lachrymatory

Quality values

Content (GC)	min. 99.0 %
Each single impurity (GC)	max. 0.5 %
Water - content	max. 0.1 %
Colour	max. 150 APHA

Wrappage

Polypropylene liquor drums with UN-Code a 200 kg.

Storage

Store in original tightly closed containers in a dry, cool and well-ventilated area. Thoroughly protect from atmospheric moisture.
